Tel. (443) 926-9310 Ext. 2 Fax: (443) 936-9310 114 Hobbs St., Greensboro MD 21639

Deck Gates Sold Online at WWW.DECK-GATES.COM. See our interior gates at WWW.GATES2U.COM

- Price.** Pricing includes UPS GROUND shipping costs. No additional shipping costs will be added. Please make sure to pick the SHIP TO zip code that applies to you.
- Sizing.** **Width:** We recommend you order your gate one inch less wide than the distance from post-to-post. Measure your post spacing at several points. Set the width one inch less than the tightest measurement. **Height:** The gate height is the distance from the bottom of the gate's footrail to the top of its handrail. Pick your gate height to match your decking, but make sure the height is 2" less than the height from the floor/ground to the underside of your post cap (if present), or 2" less than the height of the post (if no post cap or cross piece is present).
This 2" allowance gives room for your gate above the floor, and room for the sides of the gate. (The side of the gate projects 1/2" above the handrail, and 1/2" below the footrail, and is neatly beveled).
- Spacing.** The gate itself is 2" thick, and looks the same on front and back - not like inexpensive pressure-treated gates sold in stores. We use 2 3/4" to 3 1/8" gaps for child safety. Please mark in on this form if you want different spacing. We can use any air gap or center-to-center spacing that you tell us to.
- Included.** Your gate a fully assembled gate ready to hang. Hinges and latch are not included, but works with any standard set, such as the integrated gate kits from Home Depot and Lowes. Gates over 40" width include integrated anti-sag hardware! (a \$13 value) All internal components of the gate are galvanized.
- Care.** The gate is unfinished (paint or stain-ready). We recommend you wipe it down with Thompson WaterSeal upon hanging and every year thereafter (part of regular cedar wood care).
- Shipping.** It ships via UPS GROUND in a heavy-duty 275lb industrial rated box, fully insured.
- Delivery.** It ships in one week, often sooner.
- Terms.** Gates are nonrefundable, non-returnable. We have shipped gates nationwide to satisfied homeowners, hospitals, eldercare facilities, and rescue leagues since 2004. Gates are architectural items and are not certified by any third-party juvenile testing organization. Client is solely responsible for the suitability and fit of the gate. Use at own risk for child safety purposes.
- About Us.** Gates2u is the leading manufacturer of handcrafted deck, pet and baby gates, and we ship nationwide. Exterior gates are in Western Cedar. Our interior gates are in poplar and pine, with other styles also available in hemlock and cedar beadboard. Our interior gate models can be built in your size (up to 54" tall, and for openings up to 62" wide), in single and double door models, and with your slat or spindle spacing. Exterior gates are limited to 38" in height and 44 7/8" in width.
- Great Value.** Our gates are so much sturdier than our competitors! Our gates are not simply panels - our slats and spindles are dado joints that let the slats descend deep into our hand and footrails. So sturdy! Looks the same front and back. More attractive graining than pressure treated lumber. Ideal for dogs.

Latches for display purposes only. Not included.

Instructions. We are on the East Coast. We don't want to penalize our Mid-West and Western customers, so we only have two shipping rates. If you are far west of the Mississippi, you are saving 20 to 30% off of UPS rates! Shipping big boxes is expensive. If you are in zip codes 00000 up to zip code 56999 please use "**Eastern Pricing**". That price includes the gate and shipping to those zip codes. If you live in zip codes 57000 to 99499 pick "**Western Pricing**". That price includes the gate and shipping fees to those zip codes. Do not use this form if you are in AK, HI, PR or CANADA.

Check the gate you want, circle the price, complete payment info, fax back to 443-926-9310

Please Complete: Gate Width Desired in Inches _____ Gate Height Desired in Inches _____

Please write in standard fractions, for example 38 5/8", or 32 1/16". Please round measurements to the nearest 1/8" of an inch.
